

Tuesday 6.10 P.M.

Dear Jan

Just a quickie to let you know we got your letter written on Sunday. Didn't Peggy or I get you a pair of scarves from that same order one a year ago. I'm glad you sent Joe a pair but I'm afraid he's not the same Calhoun you and Dot are - he always squashed they itched. Getting them from you may mean something - Jan did you get the other two short notes I sent out on Saturday last. One had 5.00 in it - Can we a hurry now as I have to

get dressed and out to Red
Cross by 6.45. The Chief still
home - Pearson "Do bell with
them I have 60 deep sick
leave" - After a while he'll
be returning - Called Robinson
today to see if he had gotten
Jois letter - out to lunch but
French took the message -
They got the letter and have
already answered it. He
seemed very pleasant and
made all inquiries as to
where you were. Asked to
have the whole office remembered
to you both.

Sunday and Sat night we played
home - Sunday night went

to Lanny's and stayed till 2 P.M.
The enclosed letter from Dotty
Kate found in her school
books and asked me to send
it along. Evidentially D. O. thinks
the Army one big grand family.
I've have had first a telegram
on Friday and then Saturday
the enclosed letter - nothing
since and here it's Tuesday
maybe she's laid up from the
photo - I had already taken a
chance and written to D. O.
on Saturday telling her where
you were - as soon as I get
an address from her I'll
let you have it. There is
a letter of her from D. O. Crowley

which I carry ⁴ forward as yet.
Why don't you brof Dot a line.
as she says she is rather lonely
she was asking for you.

Sv. Katherin Dolores - St Mary's
Hospital - West Palm Beach Fla.

Am also enclosing Eugene's
letter which I think dawn well
of how as it was just the
ordinary thank - you note.

Will Jan I'll sign off
The enclosed letters will
make up for my not writing
you. Your insured package
left here today (Tuesday) you should
get it by Friday any way. I hope I didn't
but forget anything - return Dot's
and Eugene's letters please
Love from Mother

P.P. Don't you think our
last note rather a swell
letter,

AFTER 5 DAYS RETURN TO

244-87 M
