

Wednesday

Dear Frank,

I am terribly sorry that I haven't written to you sooner but to tell the truth I lost your address & just got it again.

Well how do you find army life. I guess its a bit disgusting & inefficient but you'll find it as time goes by. The basic part as you must know now is by far the hardest schedule in army life. I am glad to hear you qualified for O.C.S. - if you didn't I don't know who could. I qualified also but it doesn't mean anything to me.

Well here at P.I.T. everything is fine. My

dad & mother were out to  
see me a couple of weeks  
ago and that certainly  
made me happy. I  
fly in a week or a half or  
so. Then on to Nashville  
in about a month. After  
classification they  
we find out what we  
will do. My studies  
here at school are  
physics and math. Two  
rather difficult subjects  
but with God's help  
we'll make out okay.

Craig & I see is now a  
classmate. John's  
departure is up so soon  
he may be going. My cousin  
is getting ready to go  
overseas. Well thank let me  
hear from you soon. With  
the best personal regards  
remain

A true friend
