

NASHVILLE ARMY AIR CENTER

AAFCC

NASHVILLE, TENNESSEE

Saturday

Dear Frank,

I finally got your address from Eugene so I am taking this opportunity to write you.

When you get this I shall be an Maxwell field the Army pilot pre-flight school. We'll study code, navigation physics math and many other subjects that will be hard for me. Fortunately, thank God, they don't wash you out here but try to get you through into primary training.

I passed all three army  
tests for pilot, bombardier &  
navigator, so I should  
get washed out. There's a  
chance I can come back as  
some other capacity.

You got a damn lucky  
break. To think that in a  
year you'll get your E. E.  
Degree - boy that's really  
something. I guess your  
courses are really tough  
but I know of no one  
who would be a better  
match for them. How do you  
like Purdue University?  
I guess there are many  
who could there.

Whisper - making out  
just - he writes me  
twice weekly. He was  
burned & disfigured  
because of his nose but  
that's God that's  
fixed now so who knows.  
I guess it will be a  
long time before I see you

but do write and let me  
know things are. When this  
mess is over we're really  
going to have a time.

Oh yes, my Selafani is  
down here with me.

Best of luck & God bless you  
Your devoted friend  
Jimmie Duffy
